

1 Expectations for this course

Welcome to the class!

We would like to get to know you a bit and learn about your expectations for this course. Please take a few minutes to share your thoughts on the following questions.

- (a) What have you heard or learned about quantum mechanics? Where did you learn it?
- (b) What do you expect to get out of this class? (This could include how you hope your understanding, ways of thinking, confidence, or feelings about quantum mechanics will develop over the term.)
- (c) How do you feel about taking this class? Nervous, excited, bored, etc.? What makes you feel that way?
- (d) Are there aspects of quantum mechanics you are particularly curious about?
